1. Director's report

1.1 Results for the first half of 2011

Net profit for the first half of 2011 amounted to 68.3 M€, which exceeded that for 2010 by 20.7%. Net Recurring Profit increased 14.1%.

EBITDA increased 9.8%, totalling 235.5 M€. The increase is due mainly to the increase in the regulated assets base, evolution of the remunerated hydro land and improvement of the Group's operating performance.

Net borrowings amounted to 2,298 M€, the main credit metrics having improved significantly (the Net debt/EBITDA ratio decreased from 5.4x to 4.9x). Despite the difficult market conditions, reflected by the pronounced increase in sovereign yields, the average cost of borrowing was 4.4% (52 bps above 2010).

Main indicators [million euros]	1stH 2010	1stH 2011	Change %
EBITDA	214.5	235.5	9.8%
Net financial income	-41.2	-46.2	12.2%
Net income	56.6	68.3	20.7%
Recurrent net income	59.8	68.3	14.1%
CAPEX	123.9	139.7	12.7%
Average RAB	2,849.2	3,065.7	7,6%
Net debt	2,251.0	2,298.4	2.1%
Net debt /EBITDA	5,4 x	4.9 x	-0.5 x

1.2 Review of results

EBITDA increased 21.0 M€ (+9.8%) in relation to 2010, totalling 235.5 M€. The following main items affected EBITDA:

- Increase in the regulated assets base (RAB), especially infrastructures with a greater remuneration rate, resulted in significant increases in the captions "RAB remuneration" (+11.5 M€, +11.8%) and "recovery of depreciation" (+5.5 M€, + 7.4%);
- Revision of the remuneration formula for hydro land (which stopped being related to inflation and started being calculated based on the interbank swap rate for terms closer to the legal depreciation period of the land in question, plus 0.5%), which resulted in income of 6.2 M€;
- Decrease of 15.8 M€ in REN's OPEX to 55.5 M€. The decrease reflects a significant effort to decrease costs, as well as the effect of fully consolidating the transmission companies of GN in the REN Group.

Net financial income in the first half of 2011 was negative in 46.2 M€ reflecting an increase of 12.2% in relation to 2010, due essentially to current market conditions. The average cost of REN's borrowings for the half year was 4.4% (52 bps above 2010).

1.3 Average RAB and capital expenditure

Average RAB increased 7.6% in relation to the first half of 2010, totalling 3,065.7 M€.

CAPEX for the first half of 2011 totalled 139.7 M€, representing an increase of 12.7% in relation to the same period of 2010. In the electricity business area there was an increase of 9.7% and in the gas area there was an increase of 24.4%, benefitting from the performance of REN Atlântico.

[million euros]	1stH 2010	1stH 2011	Change %
Total average RAB	2,849.2	3,065.7	7.6%
Electricity	1,527.1	1,701.0	11.4%

Capital expenditure	123.9	139.7	12.7%
Electricity	88.8	97.5	9.7%
Gas	33.9	42.1	24.4%
Other	1.2	0.1	-91.4%

1.4 Main events in the first half of 2011

- In February REN signed a long term contract with with the European Investment Bank (EIB) for 75 million euros to finance capital expenditure in the expansion of the National Electricity Transmission Network. The contract corresponded to the second part of a loan of 150 million euros.
- In February the functional restructuring of the REN Group was started, with the objective of increasing REN's flexibility and ability to adapt to its new requirements and benefit from the Group's synergies, with an increase in the integration of the businesses.
- In March the non executive directors Luis Atienza, Manuel Champalimaud, Filipe de Botton and Gonçalo Oliveira renounced their positions as members of Board of Directors. Subsequently, following REN's Annual General Meeting held on 15 April the following four new members were elected to the Board of Directors: EGF - Gestão e Consultoria Financeira, S.A.¹, Gestmin, SGPS, S.A., Oliren, SGPS, S.A. and Red Eléctrica Corporación, S.A.

¹ Formerly known as Logoplaste - Gestão e Consultoria Financeira, S.A.

- In March the corporate restructuring of the REN Group was started, through the founding of REN Gás, S.A.. Through a capital increase in REN Gás this company became the sole shareholder of the companies REN Gasodutos, S.A. and REN Armazenagem, it being decided that in due course REN Atlântico, S.A. would also become fully owned by REN Gás.
- In April the first phase of the corporate restructuring was completed, REN Serviços having acquired all the share capital of REN Gás.
- In April bonds totalling 100 million euros were issued and placed by the banks ING and Société Générale.
- Following the decreases in Portugal's risk notations, REN's risk notation was reduced by Moody's from A3 to Baa3 and by the Standard & Poor risk agency from A- to BBB-.

1.5 Main risks and uncertainties for the 2nd half of 2011

In regulation terms, in the second half of 2011 ERSE will define the rules to be applied to the electricity sector in the next regulation period, that will start on 1 January 2012.

1.6 Quarterly statements of profit and loss and cash flows

In compliance with the requirements of CMVM's (Stock Exchange Commission) Circular of 17 July 2009, following are the statements of profit and loss and cash flows for the periods from 1 January to 31 March and 1 April to 30 June 2011 and 2010 (unaudited information):

3. Notes to the half year consolidated financial statements as of 30 June 2011 and 2010

1 General information

REN - Redes Energéticas Nacionais, SGPS, S.A. (referred to in this document as “REN” or “the Company” and together with its subsidiaries as “the Group” or “the REN Group”), with head office in Avenida Estados Unidos da América, 55 - Lisbon, was founded from the spin-off of the EDP Group in accordance with Decree-Laws 7/91 of 8 January and 131/94 of 19 May, approved by the Shareholders’ General Meeting held on 18 August 1994, with the objective of ensuring overall management of the Public Electricity Supply System (Sistema Eléctrico de Abastecimento Público - “SEP”).

Up to 26 September 2006 the operations of the REN Group were concentrated on the electricity business through REN - Rede Eléctrica Nacional, SA.. As a result of the unbundling process of the natural gas business, on 26 September 2006 the Group underwent a significant change with the acquisition of the assets and participations relating to the transport, storage and re-gasification operations of natural gas, this becoming a new business.

In the beginning of 2007 the Company was transformed into the Group’s holding company and, after transfer of the electricity business to the new company founded on 26 September 2006, REN - Serviços de Rede, S.A., was renamed REN - Rede Eléctrica Nacional, S.A.

The Group currently has two main business areas, Electricity and Gas, and two secondary businesses in the areas of Telecommunications and Management of the Electricity Derivatives Market.

The Electricity business includes the following companies:

- a) REN - Rede Eléctrica Nacional, S.A., which was founded on 26 September 2006, the operations of which are carried out under a concession contract granted for a period of 50 years as from 2007, which establishes the overall management of the Public Electricity Supply System (SEP);
- b) REN Trading, S.A., which was founded on 13 June 2007, the main operations of which are the management of energy acquisition contracts (contratos de aquisição de energia - CAE) of

Turbogás and Tejo Energia which did not terminate on 30 June 2007, the date on which the new Contracts for the Maintenance of the Contractual Equilibrium (Contratos para a Manutenção do Equilíbrio Contratual - CMEC) came into force. The operations of the company include the commercialization of the electricity produced and the installed production capacity, with the national and international distributors.

Enondas, Energia das Ondas, S.A., which was founded on 14 October 2010 as a fully owned subsidiary of REN - Redes Energéticas Nacionais, S.G.P.S, S.A., operates in the management and concession of the operation of a pilot area for the production and of electricity from sea waves.

The Gas business includes the following companies:

- a) REN Gás, S.A., which was founded on 29 March 2011 to promote the development and realization of projects and developments in the natural gas area, as well as to define the overall strategy and coordination of the companies in which it has a participation;
- b) REN Gasodutos, S.A., which was founded on 26 September 2006, its capital having been paid up through incorporation of the gas transport infrastructure (network; connections and compression);
- c) REN Armazenagem, S.A., which was founded on 26 September 2006, its capital having been paid up through incorporation of the underground gas storage assets;
- d) REN Atlântico, Terminal de GNL, S.A., was acquired under the gas business acquisition, previously called “SGNL - Sociedade Portuguesa de Gás Natural Liquefeito”. The operations of the company consist of the supply of reception services, storage and re-gasification of liquid natural gas through the GNL marine terminal, being responsible for the construction, utilization and maintenance of the necessary infrastructures.

The operations of the companies referred to in paragraphs b) to d) are carried out under three concession contracts granted separately, for a period of 40 years as from 2006.

In addition, REN Gasodutos, S.A. has participations in two companies founded under joint ventures with the Spanish gas transport company Enagás, to which REN Gasodutos, S.A. ceded the transport rights over specific gas pipelines (Braga-Tuy and Campo Maior - Leiria - Braga).

These companies were founded with the objective of jointly managing the transport capacity of some sectors of REN Gasodutos, S.A.'s gas pipelines with the allocation to each of the partners of a share of the transport capacity so as to ensure maximum utilization of its capacity. The profitability of these companies was ensured by the two partners (REN and Enagás) through the fixing of an annual price payable for each natural gas unit transported.

On 17 December 2010 a contract was entered into between REN Gasodutos, S.A. and Enagás, S.A. relating to the release of Enagás, S.A. from the joint natural gas supply project to Portugal and Spain. The contract established the transmission by Enagás for the benefit of REN Gasodutos, of its utilization rights of the gas pipeline capacity, through the payment by REN Gasodutos of the amount of 29 000 thousand Euros. In addition, the contract established that all the amounts due between the transport companies (Gasoduto Campo Maior Leiria Braga, S.A. and Gasoduto Braga-Tuy, S.A.) and Enagás be settled and the shares held by Enagás in the capital of these transport companies be sold, REN having control of the operating policies of the transport companies as from 31 December 2010. The acquisition of the shares in these companies and full settlement of the balances outstanding with Enagás at 31 December 2010 was realized in the first half of 2011.

The telecommunications business is managed by Rentelecom Comunicações, S.A., its operations being the establishment, management and utilization of the telecommunication systems and infrastructures, providing communication services, taking advantage of the excess capacity of the REN Group's fibre optics.

Management of the Electricity Derivatives Market is carried out by OMIP - Operador do Mercado Ibérico de Energia (Pólo Português), S.A.. This entity was founded to organize the Portuguese division of MIBEL, providing management of MIBEL's Derivatives Market together with OMIClear (Clearing Agent for the energy market), a company founded and fully owned by OMIP, the role of which is to be the clearing agent and central counterparty for operations realized in the term market. OMIP started operating on 3 July 2006.

Following the Santiago Agreements, the company OMIP SGPS, S.A. was founded and started operating on 16 September 2010 with the corporate objective of managing participations in other companies as an indirect form of carrying out economic activities. The company became holder of the shares in OMIP - Operador do Mercado Ibérico de Energia (Pólo português), S.A.

REN Serviços, S.A. started operating in January 2008, its operations consisting of the rendering of any general administrative, financial, regulating, personnel management, salary processing, management and maintenance of non-fixed assets and fixed assets, negotiation and supply of consumables or services and in general any other services of that nature, usually known as back-office services, both for group companies and any third parties, being remunerated for these services.

On 15 December 2010, the corporate objective of REN Serviços, S.A. was changed, becoming: the Company has the objective of rendering services in the energy area and general support services to the development of the business to related companies or to third parties, being remunerated, as well as the management of investments that the company has in other companies.

Changes in the consolidation perimeter in 2011

Companies founded: On 29 March 2011 the company REN Gás, S.A. was founded, being fully owned by REN Serviços, which acquired the shares which REN - Redes Energéticas Nacionais, SGPS, S.A. had in REN Gasodutos and REN Armazenagem.

1.2. Approval of the half year condensed consolidated financial statements

The half year condensed consolidated financial statements were approved by the Board of Directors at a meeting held on 28 July 2011. The Board of Directors believes that these condensed consolidated financial statements fairly reflect the financial position of the companies included in the consolidation, the consolidated results of their operations, their consolidated comprehensive income, consolidated changes in their equity and their consolidated cash flows in conformity with International Financial Reporting Standards for interim financial statements as endorsed by the European Union (IAS 34).

2 Basis of preparation

The half year consolidated financial statements for the six month period ended 30 June 2011 were prepared in accordance with International Financial Reporting Standards for interim financial reporting as endorsed by the European Union, (IAS 34). The condensed financial statements should be read in conjunction with the annual financial statements issued for the year ended 31 December 2010.

The financial statements are presented in thousands of euros.

3 Main accounting policies

The half year condensed consolidated financial statements were prepared for interim financial reporting purposes (IAS 34), on a going concern basis from the books and accounting records of the companies included in the consolidation, maintained in accordance with the accounting standards in force in Portugal, adjusted in the consolidation process so that the financial statements are presented in accordance with International Financial Reporting Standards as endorsed by the European Union in force for the years beginning as from 1 January 2011. It is understood that the International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (“IASB”), International Accounting

Standards (IAS), issued by the International Accounting Standards Committee (“IASC”) and respective SIC and IFRIC interpretations, issued by the International Financial Reporting Interpretation Committee (“IFRIC”) and Standard Interpretation Committee (“SIC”), that have been endorsed by the European Union are considered as being part of these standards. The standards and interpretations are hereinafter referred generically to as IFRS.

The accounting policies used to prepare these consolidated financial statements are consistent in all material respects, with the policies used to prepare the consolidated financial statements for the year ended 31 December 2010, as explained in the notes to the consolidated financial statements for 2010. These policies were applied on a consistent basis for the periods presented.

Adoption of new standards and interpretations and amendments or revisions

The following standards, interpretations, amendments and revisions endorsed by the European Union must be applied for financial years beginning on or after 1 January 2011:

- IAS 24 ‘Disclosure of Related Parties’ (2009 Revision) - This revision introduced some clarifications relating to disclosures to be made of related parties, especially regarding entities relating to public administration. This change did not result in a significant impact on REN’s consolidated financial statements as of 30 June 2011.
- IAS 32 ‘Financial Instruments : Presentation’ (amendment) (to be applied for years beginning on or after 1 February 2010) - This change clarified under what conditions rights issued can be classified as equity instruments. This change had no impact on REN’s consolidated financial statements as of 30 June 2011.
- IFRS 1 First time adoption of International Financial Reporting Standards (amendment). This amendment defined the limited exemption from the requirement to present comparatives in accordance with IFRS 7 for first time adopters and simplifies the requirement to disclose comparatives relating to financial instruments in the first time adoption of IFRS. This change had no impact on REN’s consolidated financial statements as of 30 June 2011.

- IFRIC 14 ‘Prepayment of a minimum financing requirement’ (amendment) - This change eliminated an unintentional consequence resulting from the treatment of prepayments of future contributions in circumstances in which a minimum financing requirement is applicable. This change had no impact on REN’s consolidated financial statements as of 30 June 2011.
- IFRIC 19 ‘Extinction of financial liabilities through equity instruments’ (applicable to years beginning on or after 1 July 2010). This interpretation provides guidelines on the accounting for transactions in which the terms of a financial liability are renegotiated and result in the issuance by an entity of equity instruments in favour of its creditor with the resulting extinction of the full amount or part of the liability. This change had no impact on REN’s consolidated financial statements as of 30 June 2011.
- Improvements to International Financial Reporting Standards - May 2010. This process involved the revision of five accounting standards to be applied to years beginning on or after 1 January 2011. In addition, eight accounting standards to be adopted in years beginning on or after 30 June 2010 were also revised.

3.1 Comparability of Financial Statements

The impact on the statement of profit and loss for the first half of 2010 resulting from the adoption of IFRIC 12, with effect as from 1 January 2010, and reversal of income and costs relating to the excess cost of the Energy Acquisition Contracts (CAE) was as follows:

	30.06.2010	Adoption of IFRIC 12 (i)	Excess costs of the CAE not terminated (ii)	30.06.2010 (restated)
Sales	573	-	-	573

(i) Adoption of IFRIC 12 - The consolidated statement of profit and loss started to include construction costs of conceded assets and related construction income, without a margin.

(ii) Excess CAE costs - Adoption of the procedure to reverse the excess cost captions of the Energy Acquisition Contracts (Contratos de Aquisição de Energia - CAE) in other operating costs and in the caption sales and services rendered as they are “pass through” amounts (Note 21).

4 Segment reporting

A business segment is a group of assets and operations involved in the supply of products and services subject to risks and benefits that are different from other business segments. A geographic segment is a group of assets and operations committed to the supply of products and services in a particular economic environment which is subject to different risks and benefits from those that affect segments that operate in other economic environments.

The REN Group only presents business segment information as it only operates in Portugal. Transactions made by the group company Omiclear, although corresponding essentially to the sale of futures contracts in MIBEL, are not significant for geographic segment purposes.

REN identified the Executive Committee as the entity responsible for making operating decisions. The Executive Committee reviews the information prepared internally so as to assess the Group's performance and the allocation of resources. Determination of the segments was made based on the information analyzed by the Executive Committee, which did not result in new segments in relation to those previously reported.

The REN Group is organized in two main business segments: Electricity and Gas and two secondary segments: telecommunications and management of the electricity derivatives market. The Electricity segment includes the transmission of very high tension electricity and overall management of the public electricity supply system and management of energy acquisition contracts ("CAE") not terminated on 30 June 2007. The gas segment includes the transport of very high pressure gas and overall management of the national natural gas supply system, as well as operation of the LNG re-gasification terminal and underground storage of natural gas.

The other segments (telecommunications and management of the electricity derivatives market) are also presented separately although they do not qualify for disclosure.

The column "Others" includes the operations of REN SGPS and REN Serviços.

The results by segment for the half year ended 30 June 2010 were as follows:

	Electricity	Gas	Telecom.	Electricity Market Operator	Others	Total
Revenue from construction of concession assets	88,805	33,787	-	-	-	122,592

Additions in the period ended 30 June 2011 correspond essentially rights underlying the operation of the National Transmission Network (Rede Nacional de Transporte - “RNT”), the electricity segment and, in the case of the gas segment, to the rights underlying the operation of the construction project of the 3rd tank in the Sines Terminal.

The increase in intangible fixed assets for the period ended 30 June 2010 compared with the period ended 30 June 2011 refers essentially to realization of the Group’s conceded assets investment plan.

Financial costs capitalized in intangible fixed assets in progress in the period ended 30 June 2011 amounted to 8,191 thousand euros (5,585 thousand euros at 30 June 2010) while overhead and management costs amounted to 7,675 thousand euros (6,563 thousand euros at 30 June 2010).

The net amount of intangible fixed assets financed through finance lease contracts at 30 June 2011 was as follows:

	<u>30.06.2011</u>	<u>31.12.2010</u>
Acquisition cost	6,943	5,846
Accumulated depreciation and amortization	<u>(4,346)</u>	<u>(2,616)</u>

The increase in the caption borrowings at 30 June 2011 in relation to 31 December 2010 is due basically to the bond issue of 100,000 thousand euros in April 2011 and increase in the utilization of the commercial paper programs. The extension of the terms of the commercial paper program and decrease in bank overdrafts resulted in a decrease in current borrowings.

The REN Group's financial liabilities have the following main covenants: Cross default, Pari Passu, Negative Pledge, Gearing (compliance with this ratio is only applicable when the rating attributed to REN is lower than a specific level), change in shareholder control (change in shareholder control is not in itself sufficient reason to cause early maturity of the contract, there having to be a series of supplementary and cumulative conditions).

11 Derivative financial instruments

The REN Group had the following derivative financial instruments at 30 June 2011 and 31 December 2010:

Swaps:

Cash flow hedges

In June 2011 the Group contracted two new interest rate swaps to hedge the coupons of the bonds issued in April 2011. One of the swaps at 31 December 2010 matured in April 2011.

Therefore, the Group's interest rate swaps hedging part of the future payment of interest on loans and bonds had a notional value of 284,000 thousand euros (384,000 thousand euros at 31 December 2010). The fair value of the interest rate swaps at 30 June 2011 was 635 thousand euros negative (5,678 thousand euros negative at 31 December 2010).

This is a hedging of the interest rate risk on payments of interest at variable rates on recognized financial liabilities. The risk covered is the indexer of the variable rate to which the borrowing interest coupons relate. The object of this hedging is to transform loans at variable interest rates to fixed rates, the credit risk not being hedged.

The Group contracted two interest rate forward start swaps starting in 2012, with the objective of hedging the risk of interest rate fluctuation on future emissions of commercial paper the Group believes will be contracted. The instruments have a notional value of 200,000 thousand euros (200,000 euros at 31 December 2010), REN paying a fixed rate and receiving a variable rate. The risk hedged is the indexer of the variable rate to which the loan interest coupons relate. The objective of the hedge is to transform the borrowings at a variable interest rate into a fixed interest rate, the credit risk not being covered. The fair value of the interest rate swaps at 30 June 2011 was 1,294 thousand euros positive (1,553 thousand euros positive at 31 December 2010).

In addition, REN hedges its exposure to cash flow risk on its issuance of 10,000 million JPY resulting from exchange risk, through a cross currency swap with the main characteristics equivalent to the debt issued. The same hedging instrument is used to hedge the fair value of the interest rate risk of the bond issue through the forward start swap component which will only start in June 2019. The variations in the fair value of the hedging instrument are also recognized in hedging reserves, in the case of exchange rate risk, being transferred to the statement of profit and loss as the instrument covered has an effect on results.

As from June 2019 the object will be to hedge exposure to JPY and the interest rate risk, transforming the operation into a fair value hedge, the changes in fair value of the debt issued resulting from the hedged risks becoming recorded in the statement of profit and loss. The credit risk is not hedged. The fair value of the cross currency swap at 30 June 2011 was 12,353 thousand euros positive (19,146 thousand euros positive at 31 December 2010).

The exchange variation on the underlying loan of 6,017 euros at 30 June 2011 (19,146 thousand euros at 31 December 2010), was recorded in the statement of profit and loss for the year, net of the effect of the hedging instrument.

The amount recorded in reserves relating to the above mentioned cash flow hedges was 93 thousand euros at 30 June 2011 (1,141 thousand euros at 31 December 2010).

Fair value hedges

In February 2009 the Group contracted an interest rate swap to hedge the fair value of an issue of 300 thousand euros. The hedge was discontinued in November 2009, when the hedged instrument had a fair value adjustment resulting from the hedge of 677 thousand Euros. This amount will be amortized to profit and loss, in accordance with the effective interest rate method during the maturity of the hedged instrument.

Futures:

REN - Redes Energéticas Nacionais, SGPS, S.A., through its subsidiary REN Trading, S.A. has carried out some financial operations in the futures energy market, coal and CO₂ emission licences, through contracts standardized by International Swaps and Derivatives Association Inc. (“ISDA”) and through participation in futures trading exchanges.

REN SGPS and REN Trading signed an agreement under which REN Trading manages these derivative financial contracts for account and benefit of REN SGPS, thus ensuring a clear and transparent separation between these businesses, always on a previously defined basis, continuously monitored, with low exposure to risk.

This contracting of financial derivatives in the futures market does not require any physical settlement of the underlying assets, being a purely financial activity and the mere financial management of assets, not being confused with the regulated activity of Commercial Agent.

The fair value of the futures energy contracts and CO₂ licences at 30 June 2011 and 31 December 2010 was as follows:

	<u>Current assets</u>	<u>Current liabilities</u>
Financial contracts in the energy market for 2011	1,941	-
CO ₂ licences	271	-
Carbon financial contracts	-	1,572
Fair value at 31 December 2010	<u><u>2,212</u></u>	<u><u>1,572</u></u>

	<u>Current assets</u>	<u>Current liabilities</u>
Financial contracts in the energy market for 2011	848	-
Financial contracts in the energy market for 2012	182	-
CO2 licences	456	-
Carbon financial contracts for 2011	-	143
Carbon financial contracts for 2012	-	10
Fair value at 30 June 2011	<u>1,486</u>	<u>153</u>

12 Retirement and other benefit liabilities

REN - Rede Eléctrica Nacional, S.A. grants supplementary retirement and survivor pensions (hereinafter referred to as pension plan), provides its retirees and pensioners with a health care plan on a similar basis to that of its serving personnel, and grants other benefits such as long service bonuses, retirement bonuses and a death grant. The companies in the gas business provide their employees life assurance plans. There have been no changes, in relation to the preceding year, in the benefits granted to the employees.

The overall impact of the benefits granted on the consolidated financial statements was as follows:

	<u>30.06.2011</u>	<u>31.12.2010</u>
Liability on the balance sheet		
Pension plan	35,406	33,966
Medical assistance plan and others	32,476	31,959
Life insurance plan	100	106
	<u>67,983</u>	<u>66,031</u>

The amount recognized in personnel costs was as follows:

	<u>30.06.2011</u>	<u>30.06.2010</u>
Expenses on the statement of profit and loss		
Pension plan	1,082	1,415
Medical assistance plan and others	516	526
Life insurance plan	6	6
	<u>1,604</u>	<u>1,947</u>

The amounts reported as of 30 June 2011 result from the projection of the actuarial valuation as of 31 December 2010 for the six month period ended 30 June 2011, considering the estimated increase in salaries for 2011.

The main assumptions used in the above actuarial calculation were as follows:

Annual discount rate	4.54%
Expected percentage of serving employees eligible for early retirement (more than 60 years of age)	10.00%
Expected percentage of serving employees eligible for early retirement (between 55 and 59 years of age)	5.00%
Annual salary growth rate	1.30%
Annual pension growth rate	1.00%
Annual growth rate of social security pensions	2.00%
Inflation rate	2.00%
Annual growth rate of health costs	4.00%
Management costs (per employee/year)	€ 175
Growth rate of the management costs	2.20%
Rate of return on assets	5.32%
Mortality table	TV 88/90

13 Provision for other risks and charges

The changes in provisions during the periods were as follows:

The caption provisions at 30 June 2011 corresponds essentially to: (i) estimate of the payments to be made by REN resulting from litigation in process for damage caused to third parties (4,611 thousand euros); (ii) estimate to cover the contingency relating to litigation with Amorim Energia over dividends received from GALP Energia in 2006, which was recorded in 2010 following notification of the decision of the Arbitration Court of the International Chamber of Commerce (ICC) of Paris on 16 March 2010 and corresponding addendum of 8 July

2010, requiring REN to pay 20.3 M€, equivalent to half of the amount claimed by Amorim Energia, plus interest. REN believes, based on a legal analysis of the arbitration decision, that the provision recorded is adequate to cover the risk resulting from this process (12,470 thousand euros) (Note 24).

14 Trade and other payables

The caption trade and other payables at 30 June 2011 and 31 December 2010 was made up as follows:

19.4 Management remuneration

Remuneration of the Board of Directors of REN, SGPS in the period ended 30 June 2011 amounted to 740 thousand Euros (939 thousand Euros in the period ended 30 June 2010) as follows:

	<u>30.06.2011</u>	<u>30.06.2010</u>
Remuneration and other short term benefits	740	939
	<u>740</u>	<u>939</u>

The amounts shown refer only to fixed remuneration and meal allowance, as the Board of Directors does not receive any other remuneration listed in item 17 of IAS 24.

20 Deposits in guarantee

The increase/decrease in the amount of guarantees is due to changes in the value of open positions on the stock exchange, plus monthly remuneration on the guarantees.

21 Other operating costs

The decrease in this caption in relation to the amounts published in the notes as of 30 June 2010 relates to the procedure in 2011 of reversing the caption of excess costs on Energy Acquisition Contracts (Contratos de Aquisição de Energia - CAE) in other operating costs and the caption sales and services rendered as they are “pass through” amounts, totalling 149,919 thousand euros in the six month period ended 30 June 2011 (124,030 thousand euros in the six month period ended 30 June 2010).

22 External supplies and services

The caption “External supplies and services” at 30 June 2011 and 2010 is made up as follows:

	<u>30.06.2011</u>	<u>30.06.2010</u>
Gas transport subcontracts	1,545	11,875
Maintenance costs	5,773	8,516
Fees relating to external entities ii)	4,166	6,007
Cross border interconnection costs	1,651	1,311
Electric energy costs	2,376	2,130
Insurance costs	1,558	1,339
Reserve capacity costs i)	668	850
Publicity costs	495	746
Security and surveillance	972	941
Other (less than 1,000 thousand Euros)	<u>3,901</u>	<u>3,868</u>
External supplies and services	<u>23,105</u>	<u>37,583</u>

- i) The reserve capacity costs correspond to REN’s costs relating to available production capacity required from producers to maintain the system operational at all times. These costs are recognized in REN, S.A.’s Global System Management in accordance with the current regulation model.
- ii) Commission paid to external entities refers to “specialized work” and fees paid by REN for contracted services rendered and specialized services.

23 Non controlled interests

The variation in non controlled interests (529 thousand euros at 30 June 2011 compared to 6,329 thousand euros at 31 December 2010) results from REN Gasodutos, S.A.'s acquisition of all the share capital of Gasoduto Campo-Maior-Leiria-Braga and Gasoduto Braga-Tuy.

The outstanding balances in the transport companies were settled in the first half of 2011.

24 Other matters

Disagreement with Amorim Energia B.V.

In December 2007, as duly informed to the market, REN - Redes Energéticas Nacionais, SGPS, S.A. (REN) was notified of an arbitration process being judged by the International Chamber of Commerce ("ICC") brought against it by Amorim Energia B.V. regarding a matter relating to the "Shareholders Agreement relating to GALP ENERGIA, SGPS, S.A." signed on 29 December 2005, between REN, AMORIM and ENI PORTUGAL INVESTMENT, S.p.A. ("Shareholder Agreement"), especially with respect to dividends distributed by Galp Energia, SGPS, SA out of profits for 2005.

In 2006 REN and Amorim Energia BV had a disagreement as to whom the amount corresponding to the Dividends belonged, and on 15 June 2006 the Arbitration Court, especially called for the purpose by agreement between the parties, issued its decision, with one contrary vote, considering the action brought about by Amorim BV as unfounded and definitively recognizing REN's right to maintain the Dividends.

In the second arbitration, carried out by the ICC, Amorim Energia B.V., based largely on different facts, requested that REN be required to pay an indemnity in the amount of the Dividends.

On 16 March 2010 REN was notified of the arbitration decision, with one vote in disagreement, which condemned it to pay 20,334,883.91 euros to Amorim Energia B.V., equivalent to half of the amount requested by the latter and corresponding to half of the amount of the Dividends, plus accrued interest as from the date of the decision at the legal rate in force.

Following the request for clarification made by REN, on 8 July 2010 the Arbitration Court notified the Company of an addendum to the Judgement.

After analysis of the arbitration decision and its fundamentals, as well as the related addendum, it was considered that there are possibilities of reacting, which at this time lead the Company to believe, based on known facts, that there is still a significant possibility of REN's position prevailing, without prejudice to the payment, in escrow, of the amount the Company was condemned to pay.

Therefore, REN believes, based on a legal analysis of the arbitration decision and related addendum, that the provision of 12,470 thousand euros recorded in the period ended 30 June 2011 is sufficient to cover REN's costs considering the risks involved in the process.

25 Subsequent events

In mid March 2011 the Directors Gonçalo Oliveira, Luis Atienza, Manuel Champalimaud and Filipe de Botton presented to the President of the Board of Directors their resignations as members of the Board of Directors, being substituted at the Annual General Meeting held on 15 April by the following entities:

EGF - Gestão e Consultoria Financeira, S.A., Gestmin, SGPS, S.A., Oliren, SGPS, S.A. and Red Eléctrica Corporación, S.A.

However, as the Directors exercised their functions as members of the Board of Directors during most of the year, they were also asked to sign this interim report.

On 12 July 2011 REN issued three year bonds totaling 50 million euros, without guarantees, for private subscription, which were fully subscribed for by J.P. Morgan Securities, Ltd.

Lisbon, 28 July 2011

¹ The original of the referred individual statements are available, for consultation, in the Company's head Office.

4.2 List of qualifying holdings [Item c) of no. 1 of Article 9 of CMVM'S Regulation no. 5/2008]

	No. Shares	% Capital	% Vote
Capitalpor - Participações Portuguesas SGPS, S.A. ²	245,645,340	46.00%	46.00%
Parpública - Participações Públicas (SGPS), S.A. ²	20,826,000	3.9%	3.9%
Caixa Geral de Depósitos, S.A. ²	6,265,888	1.2%	1.2%
EDP - Energias de Portugal, S.A.	26,700,000	5.0%	5.0%
EGF - Gestão e Consultoria Financeira, S.A. ³	44,935,176	8.41%	8.41%

Red Eléctrica Corporación, S.A.	26,700,000	5.0%	5.0%
Morgan Stanley	21,253,961	3.98%	3.98%

Thus, in accordance with article 20 of the Securities Code, with reference to June 30, 2011, the qualifying shareholdings with voting rights representing, at least, 2% of the voting rights attached to REN's share capital are the following:

² It also clarified that, according to item a) of no. 1 of article 20, and item a) of article 21 of the Portuguese Securities Code ("Securities Code"), are attributable to the Portuguese State the following shareholdings and corresponding voting rights:

- By virtue of the total control relationship with Parpública - Participações Públicas (SGPS), S.A. ("Parpública"), the voting rights inherent to the current shareholding held by Parpública in REN's share capital, which corresponds to 266,471,340 shares held directly and indirectly, representing 49.90% of the share capital and inherent voting rights;
- With regard to the abovementioned, the votes inherent to Capitalpor - Participações Portuguesas, SGPS, S.A. ("Capitalpor")'s shareholding, since the share capital of Capitalpor is 100% held by Parpública; and
- By virtue of the total control relationship with Caixa Geral de Depósitos, S.A. ("CGD"), the voting rights, directly and indirectly, inherent to CGD's shareholding, which corresponds to a total of 6,265,888 shares (5,868,660-class B-non listed shares, 132,247-class A-listed shares, 264,045 shares owned by Fundo de Pensões Pessoal CGD and 936 shares owned by Companhia de Seguros Fidelidade-Mundial, S.A.) representing 1.2% of the share capital and inherent voting rights.

Consequently, the voting rights attributable to the Portuguese State, by virtue of the total control relationships over Parpública's and CGD, represent overall, 51% of the voting rights inherent to REN's share capital.

Morgan Stanley ⁸	21,253,961	3.98%	3.98%

⁴ EDP - Energias de Portugal, S.A. holds 18,690,000 shares directly and 8,010,000 shares indirectly, through EDP Pension Fund, which is a company within a group relationship with EDP - Energias de Portugal, S.A.

⁵ EGF - Gestão e Consultoria Financeira, S.A. holds 28,189,792 shares directly and 16,743,874 shares indirectly, being that 10,933,393 shares are held through Logo Finance, S.A., and 5,809,991 shares are held through Logoinvest SGPS, S.A., companies in a group relationship with EGF, Gestão e Consultoria Financeira, S.A., and 490 shares held direct and indirectly, by the Member of the Board of Directors of such company, Mr. Alexandre Relvas.

⁶ On June 3, 2011, it was disclosed to the market that EGF and Banco Comercial Português, S.A. (“Millennium bcp”) agreed on a right of title transfer (rehypothecation right), pursuant to articles 9 and 10 of Decree-Law no. 105/2004, of May 8, in relation to 28,131,422 nominative, book-entry shares representing 5.27% of REN’s share capital.

However, according to said agreement, the voting rights attached to the shares shall continue to be attributed to EGF, under the terms of item e) of number 1 of article 20 of the Securities Code and LGCF shall keep its right to receive dividends. Therefore, the exercise of the a right of title transfer (rehypothecation) right by Millennium bcp will not affect the current qualified shareholding position of LGCF in REN, which amounts to 8.41% of REN’s share capital and voting rights.

⁷ Gestmin, SGPS, S.A. holds 28,493,332 shares directly and 69,300 shares are held on behalf of Mr. Manuel Champalimaud, Chairman of the Board of Directors.

⁸ The participation attributable to Morgan Stanley concerns, besides a percentage of shares held directly (0.79% of REN’s share capital), to financial instruments related with REN’s shares (corresponding to around 3.18% of REN’s share capital) which were executed by Morgan Stanley to hedge to a short position in financial instruments over shares in REN with Banco Comercial Português, S.A., following the transactions disclosed on June 3, 2011. The shares and therefore the voting rights should be delivered to BCP if the same or Morgan Stanley cause the termination of the relevant financial instruments.

4.4 Limited review report prepared by an auditor registered at the stock exchange commission (Comissão do Mercado de Valores Mobiliários) on the half year consolidated information

(Translation of a report originally issued in Portuguese - see Note 26)

(Amounts expressed in thousands of Euros - tEuros)

Introduction

1. Under the terms of the Stock Exchange Code (Código dos Valores Mobiliários) we present our Limited Review Report on the consolidated financial information of REN - Redes Energéticas Nacionais, S.G.P.S., S.A. (“the Company”) for the half year ended 30 June 2011, included in the: Directors’ Report; Consolidated Statement of Financial Position (that reflects total assets of 4,408,682 thousand Euros and equity of 1,007,308 thousand Euros, including a consolidated net profit attributable to the Group of 68,251 thousand Euros), Consolidated Statements of Profit and Loss, Comprehensive Income, Changes in Equity and Cash Flows for the half year then ended and the corresponding Notes.
2. The amounts in the financial statements, as well as the additional financial information, are those reflected in the accounting records of the companies included in the consolidation, subsequently adjusted, in the consolidation process, to conform to International Financial Reporting Standards as endorsed by the European Union.

Responsibilities

3. The Company’s Board of Directors is responsible: (i) for preparing consolidated financial information that fairly presents the financial position of the companies included in the consolidation, their consolidated comprehensive income, consolidated changes in equity and consolidated cash flows; (ii) that the historical financial information is prepared in accordance with International Financial Reporting Standards as endorsed by the European Union, and that it is complete, true, timely, clear, objective and licit as required by the Portuguese Securities Market Code (Código dos Valores Mobiliários); (iii) for the adoption of adequate accounting policies and criteria; (iv) for the maintenance of appropriate systems of internal control; and (v) for the disclosure of any significant facts that have influenced its operations and those of the companies included in the consolidation, their financial position or their comprehensive income.
4. Our responsibility is to examine the financial information contained in the documents of account referred to above, including verifying that, in all material respects, the information is complete, true, timely, clear, objective and licit, as required by the Portuguese Securities Market Code, and to issue a professional and independent moderate assurance report on that consolidated financial information, based on our examination.

Scope

5. Our work was performed with the objective of obtaining moderate assurance as to whether the financial information referred to above is free of material distortion. Our

work, which was performed in accordance with the auditing standards (“Normas Técnicas e Directrizes de Revisão /Auditoria”) issued by the Portuguese Institute of Statutory Auditors (“Ordem dos Revisores Oficiais de Contas”), was planned in accordance with that objective and consisted mainly of inquiries and analytical procedures to review: (i) the reliability of the assertions included in the financial information; (ii) the adequacy of the accounting policies used, considering the circumstances and their consistent application; (iii) application or not of the going concern concept; (iv) presentation of the financial information; and (v) if, in all material respects, the consolidated financial information is complete, true, timely, clear, objective and licit as required by the Portuguese Securities Market Code.

6. Our work also included verifying the consistency of the consolidated financial information included in the Directors’ Report with the other documents referred to above.
7. We believe that our work provides a reasonable basis for issuing this Limited Review Report on the consolidated half year financial information.

Opinion

8. Based on our work, which was performed with a view to obtaining moderate assurance, nothing came to our attention that led us to conclude that the consolidated financial information of REN - Redes Energéticas Nacionais, S.G.P.S., S.A. for the half year ended 30 June 2011, referred to in paragraph 1 above, is not exempt from material distortions that affect its conformity with International Financial Reporting Standards as endorsed by the European Union for purposes of interim financial reporting (IAS 34), and that in the terms and definitions included in the guidelines referred to in paragraph 5 above, is not complete, true, timely, clear, objective and licit.
